TEA MENU

Earl Grey Crème | Black Tea

A sweeter, fuller variant of Earl Grey. The creamy character layered in with the bergamot makes it much more dessert-like without losing those high aromatics the traditional blend is known for.

Moon over Madagascar | Black Tea

This is an indulgent and decadent tea. It is a marvelous blend of black tea, flavor, and vanilla pieces. Rich and sumptuous, with no astringency.

Minnesota N'Ice | Black Tea

It's the perfect fishing buddy: sweet and silent. This black tea blend tastes like oranges with a floral touch and pairs nicely with a cabin at the lake.

Iron Goddess of Mercy | Oolong Tea

Oolong usually falls in the middle between black and green tea in caffeine content. The roast brings a nutty, vanilla aroma. The body is soft, yet full with a toasted, creamy, floral character with brisk citrus.

Green Mango | Green Tea

Sweet, smooth, and summery. The aroma of fresh mangos rises from the steeped cup. The tea itself is smooth, sweet, and silky and brings to mind tropical breezes on desert islands.

Jasmine | Green Tea

Sweetly floral, full in body, and pleasantly bright in character. Jasmine tea is scented by piling jasmine buds with finished tea. As the jasmine buds bloom, the tea absorbs their fragrance.

Red Berries | Herbal Tea

A very popular caffeine-free blend with the perfect balance of sweet and tart: hibiscus, rosehips, sultanas, apple, elderberry, blackberry leaves, blackberries, sour cherry pieces, and raspberry.

Northern Lights | Herbal Tea

Chamomile-based with sweet spearmint and vanilla. For those who like loon songs, cricket calls, and star-gazing in the Northwoods.
